Overview

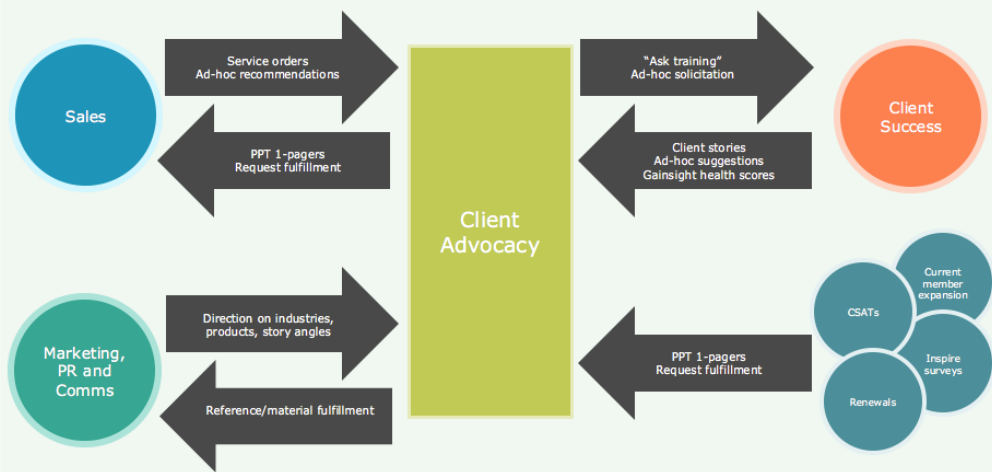

The Bazaarvoice client advocacy (reference) program serves as a means for leveraging current healthy/satisfied/successful client to maintain or strengthen the Bazaarvoice brand, by amassing and mobilizing a base of client advocates who can evangelize our solutions and services. The program has been rebranded *Client Advocacy Program* to properly showcase the full purpose and potential of what it can do, the company efforts it supports and the multitude of stakeholders who can fuel or benefit from it (Sales, Marketing, Brand/Comms and Client Success), rather than just focusing on providing references for sales.

Benefits

- Build trust with and demonstrate value to prospective customers
- Enable the sharing of positive testimony
- Celebrate, reward and amplify client successes and help build the personal brand of client champions
- Differentiate from competition
- Increase the sales, revenue and average deal size
- Shorten the sales cycle
- Internally: expand the number of client participants to include more types and avoid exhaustion

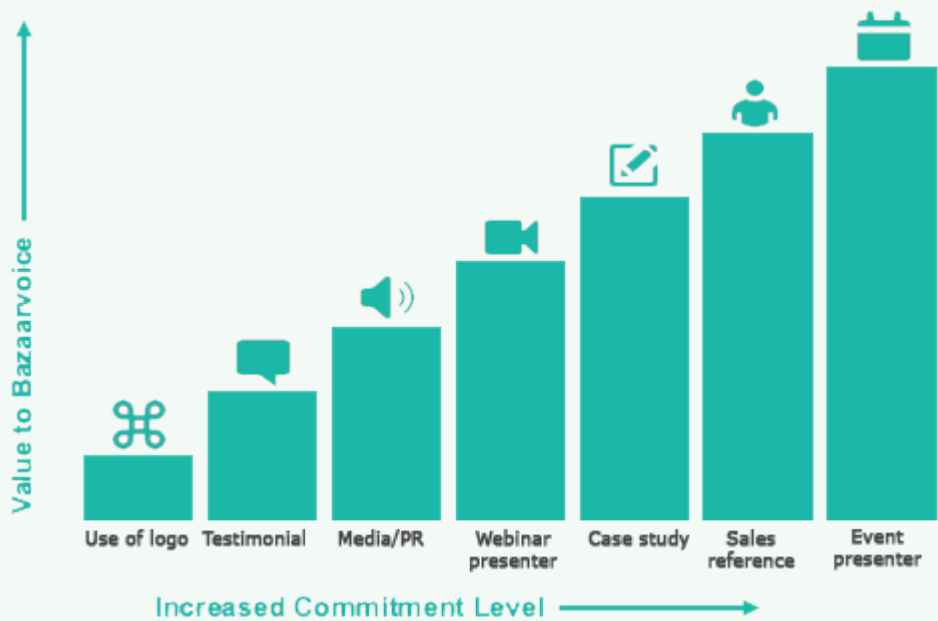

Program expansion

- Partner more closely with CS to identify potential candidates and for outreach/client communication; partner more closely with Sales and Renewals for formal agreements
- Expand the scope of involvement of our current client participants by asking them to do more than be just field reference calls/emails/RFPs (though still consider starting with small "asks")
- Include more internal incentivization
- Improve messaging to shift from an Ask to an Invitation, while better communicating what's in it for them
- Focus more on high-impact involvement, including case studies, Inspire speaking engagements, co-hosted webinars, press, etc.
- Identify industries, topics/stories and Bazaarvoice products/solutions to target more aggressively and coordinate with Sales to identify what the team needs
- Tie the reference program to business objections and track reference-attributed sales

Levels of member commitment

Rather than just building a base of clients who are asked just to fielding reference request emails, phone calls and various one-off requests, the program will focus on expanding the commitment levels of members who are willing to be even more vocal and supportive of Bazaarvoice.

2 Primary Sources

Client Success & Sales

- Quarterly client stories - both new and previous stories that have been approved by the client for external sharing.
- Renewals - added means for RSDs to negotiate agreements when making a concession
- Gainsight health scores
- Direct solicitation
- Service orders - added to contract as Client Collaboration item

★ Special focus will be given to non-core solutions and targeted industries and stories/angles.

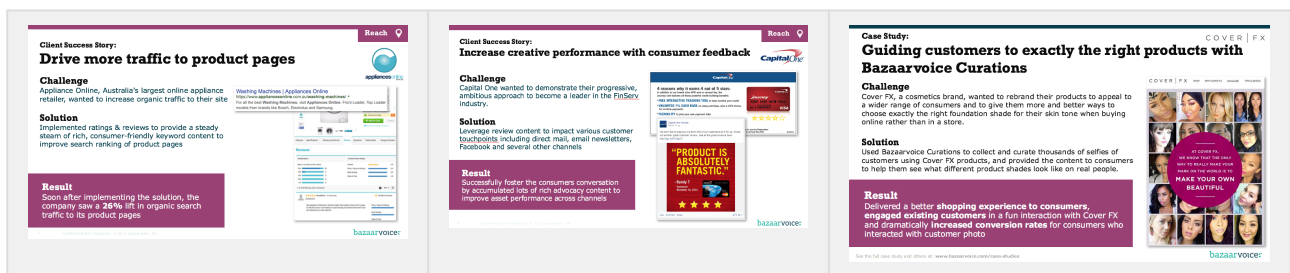

Other

- CSATs - powered by Strategic Programs team
- Expansion of levels of commitment of current client members
- Inspire feedback surveys

3 Sales Enablement

Along with providing Sales with a list of clients who can serve as references, another part of the program entails arming Sales with simple materials that can be shared with prospects. This will come in the form of PPT and PDF 1-pagers for those stories that have been approved by clients to be shared externally. Client success stories will be the primary source for this material, and they will be provided to Sales with categorization, to make it easy for the team to quickly find the content that's relevant to the specific need. Ones based on case studies will include the entire case study content in the PPT notes section.

Examples of PPT 1-pagers (previous versions...new versions to be slightly different):

4 **Permissible Client Logos >>**

5 **New 2016 References >>**

6 **Case Studies >>**

7 **Inspire Client Presenters >>**

8 Inspire Client Presenters

9 Permissible Client Logos

Please **only** use these client logos in BV decks and other collateral!
